**RESKIT**

# GRP<sup>®</sup>ROOF

## Sustainable high-performance GRP

Sustainable GRP system containing recycled PET, with the equivalent of **206 recycled plastic bottles in every 20kg** of GRP<sup>®</sup>ROOF Base Resin. Specially formulated roofing system that offers a durable and eco-friendly waterproofing solution for flat roofs and balconies. GRP<sup>®</sup>ROOF is backed by a 20 -Year materials guarantee, versatile for use on a range of complex roof details and can withstand foot traffic as standard. Our **new improved technology** supports sustainable building practices by reducing plastic waste.

- ✓ Engineered to deliver optimum roofing performance.
- ✓ Can achieve B<sub>ROOF</sub>(t4) Fire Rating for unrestricted use.
- ✓ 20 - Year material guarantee.
- ✓ Enhanced inter-coat adhesion and excellent bonding characteristics to OSB3 and OSB3 Zero.
- ✓ Accelerates wetting out of CSM, leading to faster installation times.
- ✓ Reduced sanding required between coats due to improved matte finish.

<b>FLEXITEC</b> Resin 20kg	4" Roller Frame
<b>FLEXITEC</b> Primer 2.5kg	4" Roller Sleeves
Powder Hardener 1kg	7" Roller Frame
225G/M <sup>2</sup> CSM	7" Roller Sleeves
2 x 50mm Paint Brushes	Sand Paper
Restec Mixing Bucket	
CODE	101162

# PRIMERS

## METAL DETAILING PRIMER

A single pack, fast drying metal primer in a resealable 250ml tin.

PACK	AMOUNT	CODE
6x250ml	10-30m <sup>2</sup> per box	122067

## SP PRIMER

A moisture curing primer for PVC, TPO & EPDM single ply.

PACK	AMOUNT	CODE
1Ltr	12-15m <sup>2</sup>	122006

## ACETONE

Used for cleaning tools & as a pre-surface treatment for some substrates.

PACK	CODE
1Ltr	109126
5Ltr	109106

# SEASONAL ADDITIVES

## FLEXITEC WINTER ACCELERATORS

Low temperature additive to allow in installations down to 1°C.

PACK	COVERAGE	CODE
Resin	1 pot per 10kg	162005
Primer	1 pot per 5kg	158106

## FLEXITEC SUMMER INHIBITORS

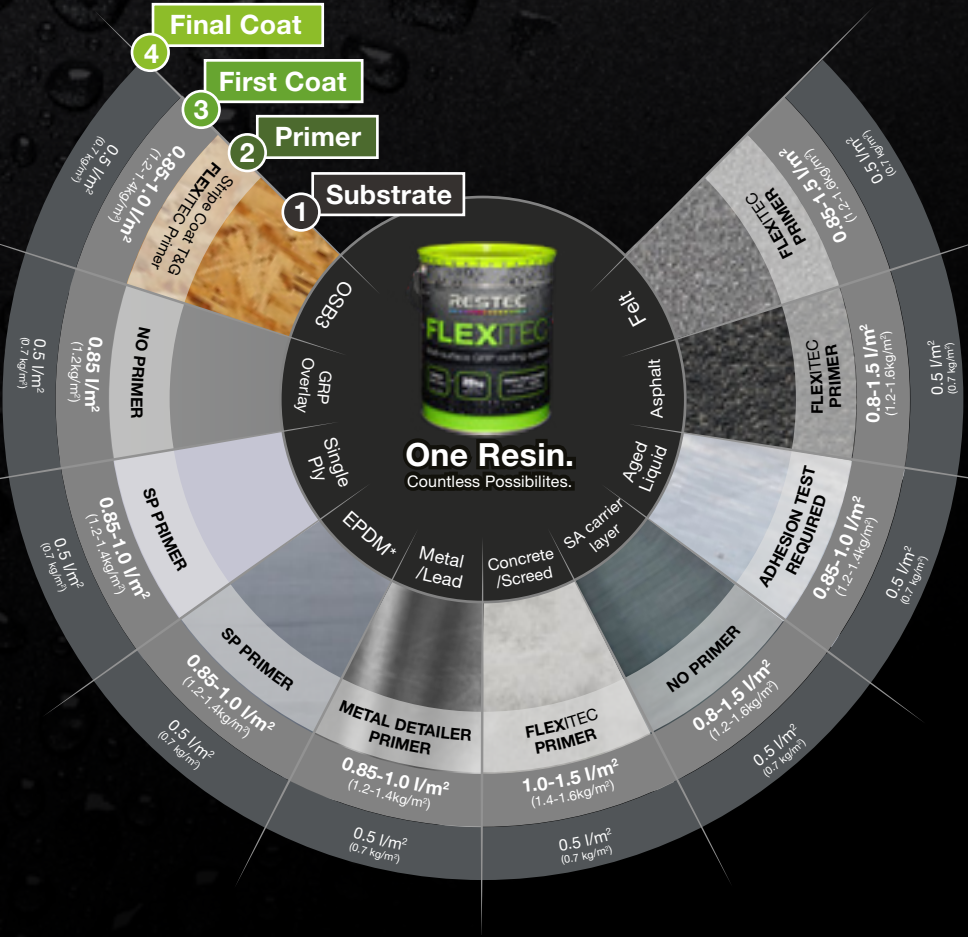

High temperature additive to allow in installations up to 30°C.

PACK	COVERAGE	CODE
Resin	1 pot per 10kg	162013

FLEXITEC SUBSTRATE  
Substrate Reckoner

Depending on the type, roughness and porosity of the surface to be coated, the priming requirements and amount of material required can vary. The table below outlines suitable substrates, primers and typical coverage rates.

\*Adhesion tests maybe required for certain substrates to confirm preparation & priming requirements. All coverage rates are indicative only and subject to confirmation on the project site.

ADHESION TEST KIT

CODE

109129

A complete kit designed to carry out adhesion tests and confirm substrate suitability.

## APPLICATION TOOLS

### MIXING BUCKET

The Restec mixing bucket helps you quickly and easily measure out your catalyst for the all systems in our range.

PACK	CODE
10ltr	109195

### TOOLING KIT

PACK CONTAINS	CODE
Application rollers, paddle rollers, brushes and more.	109163

### PUSH FIT ROLLER FRAME
